

TRICIA D. GREENE, MD

BIO

Tricia D. Greene, M.D, M.S. is an Assistant Clinical Professor at Zucker School of Medicine at Hofstra/Northwell. She practices at Long Island Jewish Hospital - Valley Stream, and at Northshore University Hospital in Urology. At Valley Stream we work with and educate medical students rotating on general surgery and PA students. When at Northshore, she gets to participate in urology resident education. Dr. Greene received her medical degree at Albany Medical College and completed her Residency at University of Connecticut in Urology at

Farmington, CT and then completed a fellowship in robotic and minimally invasive surgery at Rochester University, Strong Memorial Hospital. She sees patients in Lake Success and practices mostly general urology, though with a Bachelor of Science in Biochemistry from Cornell University, and Masters in Cell and Molecular Biology from CUNY Hunter, tends to see a good number of cancer patients due to interest and background.
